**Q. 1. A) Read the following passage and answer the following questions.**

**10**

And what if they don't? And there are many like them," said Niyati. "I have an idea," said Soli, "Let some of the students work as our Searchlights.' They will visit us at home, talk to use every day to see that we study."

"And what if we have difficulties?" asked Nilesh.

"Let us also have 'Study Guards' like Niyati who will help us out of our difficulties."

"That's a great idea," said Sunil. "Let's have Study Guards for every subject." It didn't take very long to identify the SL's and SV's. We put the PoA in motion immediately. We did this without getting any of the teachers in on the secret. We wanted to give Mrs. Desai a surprise. But she is really too good. She spotted the change with a week.

**10**

The dead sea is actually a huge lake or inland sea in the Jordan Valley on the Israel-Jordan border. The lake or sea is extremely salty - five times as salty as the other oceans in the world. Nothing can survive in this salty lake, except for some micro-organisms. No plants or animals grow in it or can live in it - hence the strange name, "Dead sea!"

The shores of the world's saltiest body of water also mark the lowest point on the Earth's land surface. It is nearly 400 metres below sea level. In other words, the surface of this inland lake or sea is itself 400 metres below sea level. The Dead Sea measures 79 kilometres in length and is up to sixteen kilometres wide at its widest. It is nearly 400 metres deep in the north but very shallow towards the south.

- a) **Answer in one sentences.** 05

Bright-eyed little blossoms,  
Growing by the way,  
Look up as we pass them  
Laughingly to say :  
‘So the shower has caught you  
And escape is vain!  
Isn’t it delightful,  
Running through the rain?’  
‘Pitter patter,’ softly  
Drip and drops around,  
While a peeping sunbeam  
Gilds the scented ground.  
Shelter nowhere near us !  
Yet we don’t complain,  
For it’s so delightful  
Running through the rain
